UNEMPLOYMENT IS KILLING SOUTH AFRICA!

Unemployment in South Africa is currently at a whopping 33% with no signs of slowing down. On a daily basis people are crossing our borders illegally looking for work, which just isn't available. There isn't even enough jobs for South Africans themselves, let alone jobs for immigrants. When people are not working crime usually follows and we have one of the highest crime rates in the world. INTRODUCING

PASSIVE

What is Sesha Passive?

AN INNOVATIVE WAY TO FIGHT UNEMPLOYMENT

South Africans from all walks of life can generate passive income promoting Sesha ***and your business!***

People go through life talking to people every day. Now we are giving people the opportunity to talk to people and potentially make money. The more they talk to people the better their chances of generating a passive income. No skills needed just the ability to talk.

HOW DOES IT WORK?

Any South African citizen with a valid ID can join the Sesha website and apply for our exclusive, members-only program, **Sesha Passive**. Each application is carefully reviewed to confirm citizenship and ensure all criteria are met.

Once approved, members pay a small annual fee to cover administrative costs. This includes ID verification through the Department of Home Affairs, which charges for each verification.

After paying the membership fee, each new member receives a unique code that remains linked to their account for as long as it exists. This code can be shared with businesses and individuals, and the member earns money whenever it is used. Anyone who uses the code receives a small discount, and the member earns a commission on that transaction. If someone joins the program using a member's code, the member also earns from that sign-up. In the case of memberships the person earns the commission every month.

Sesha Passive members generate income across multiple activities on the platform. They earn when companies purchase memberships to promote their businesses and receive monthly leads. They earn when users pay to feature content and apply the code for a discount. They also earn when businesses advertise on the platform using the code, as well as when standard members purchase leads and apply the code.
